## **Tanner Remodeling & Construction Offering New Home Maintenance & Repair Assistance Program**

Tanner Remodeling & Construction, a general contracting firm serving Western New York since 1974, has expanded their scope of services to include a new Home Maintenance & Repair Assistance Program. In addition to accepting typical construction and remodeling jobs, Tanner will become intricately involved with the long-term inspection, assessment, planning and implementation of comprehensive solutions within their homeowner customers' goals and parameters.

“We want to safeguard our customers by finding the most economical solutions for the problems facing homeowners today,” said Tanner Remodeling & Construction President, Scott Tanner. “Combining the trust we’ve built over thirty years in the business with a comprehensive and coordinated check-list of needs assessment, we can maximize homeowner benefits while minimizing costs.”

As part of the Home Maintenance & Repair Assistance Program, Tanner has embraced the “Handy Man” concept and will offer their customers the expertise of his staff and related maintenance associates regardless of the scope of the job.

During their Buffalo Home Show appearance (Booth # 338, March 4-12, 2006) as well as their new showroom Grand Opening festivities (St. Patrick’s Day, March 17<sup>th</sup> 2006), Tanner will be offering Home Maintenance & Repair Assistance Program “Level One” packages as one of the many prizes and surprises planned.

For more information about their new Home Maintenance & Repair Assistance Program or any remodeling or construction question, please contact Scott Tanner, President, Tanner Remodeling & Construction, 164 Buffalo Street, Hamburg, New York 14075, call 716-649-2422, fax 716-649-2447, or visit their website [www.tannerremodeling.com](http://www.tannerremodeling.com).
