Tanner Remodeling & Construction Puts Finishing Touches On Showroom/Design Facility Before March 17 Grand Opening

The final pieces of Tanner Remodeling & Construction's new comprehensive showroom and design facility are falling into place just in time for their Grand Opening festivities. The event will run St. Patrick's Day, Friday, March 17th 2006 starting at noon and continue Saturday, March 18th from Noon until 5pm at 164 Buffalo Street in Hamburg, New York. During both their Grand Opening festivities as well as their Buffalo Home Show appearance (Booth # 338, March 4-12, 2006), Tanner will be offering various kitchen appliances, large cash discounts and Home Maintenance & Repair Assistance Program "Level One" packages as some of the many prizes and surprises planned.

"We've had tremendous help from all our suppliers to make this showroom and design facility come to life," said Tanner Remodeling & Construction President, Scott Tanner. "Our customers can now see and touch hundreds of home improvement products and take advantage of literally thousands of ideas. 'Together... Building Your Dreams' once simply a slogan is now a reality."

The general contracting firm, serving Western New York since 1974, recently purchased the former Weinar Paint Store building to accommodate a doubling of its workforce and for needed expansion, storage and fabrication space. The highly visible location is literally across the street from the main entrance of the Hamburg Village Square Plaza between Pleasant and Maple.

For more information about their Grand Opening, remodeling or construction questions, please contact Scott Tanner, President, Tanner Remodeling & Construction, 164 Buffalo Street, Hamburg, New York 14075, call 716-649-2422, fax 716-649-2447, or visit their website www.tannerremodeling.com.
